

If printed 17 inches tall (from black-outlined edge to black-outlined edge) the scale of these drawings is 1/350.

NOTES

DECK 3
Stairs for the emergency exit on Deck 2 start on Deck 4 and continue up from there past this level. On either side are storage spaces (labeled EL) which could contain full spacesuits, partial suits, air-testing kits, etc ... useful if exiting via the top hatch.

An Officers' Lounge occupies the forward part of this deck.

Some Science Labs will exist regardless of the exact role or class of the ship. They could be reconfigured depending on the mission requirements.

Water storage all around (as is typical on Constitution-class ships) has been expanded as a top layer of protection (albeit a very thin layer) for most of the extension at the back of the Primary Hull.

The Hangar Bays occupy most of the extension at the back of the Primary Hull.

The Impulse Engines have been raised from Deck 6 and Deck 7 to Deck 4 and Deck 5.
Main Engineering has also been raised.
The Engineering section is surrounded by Deuterium Fuel tanks.

DECK 3: SCIENCES / LOUNGE
