NOTES

- A** SEE PAGE 1
This pale gold-coloured ring is part of the Tractor Beam system. See Page 17 for more information.
- B** SEE PAGE 2
The "Emergency Crew Escape" hatch, normally located here, has been deleted on this type of ship.
- C**
The bump behind the original Bridge is tall enough to allow a turbo-elevator to fit. See Page 9 for more information.
- D**
In an emergency, the red-outlined panel swings open and the antimatter (created and stored in the engine nacelle) is ejected upwards.
- E**
These 2 hatches are for oversized cargo or for deploying special equipment.
- F**
The Matter-Antimatter Reaction Chamber is heavily shielded and recessed within each Warp Engine nacelle.
