

NOTES

DECK 10
TMoST states that miscellaneous activities and cargo spaces are on Deck 10 of Constitution-class ships. Since cargo spaces are on this deck, it is logical to place a Cargo Transporter here.

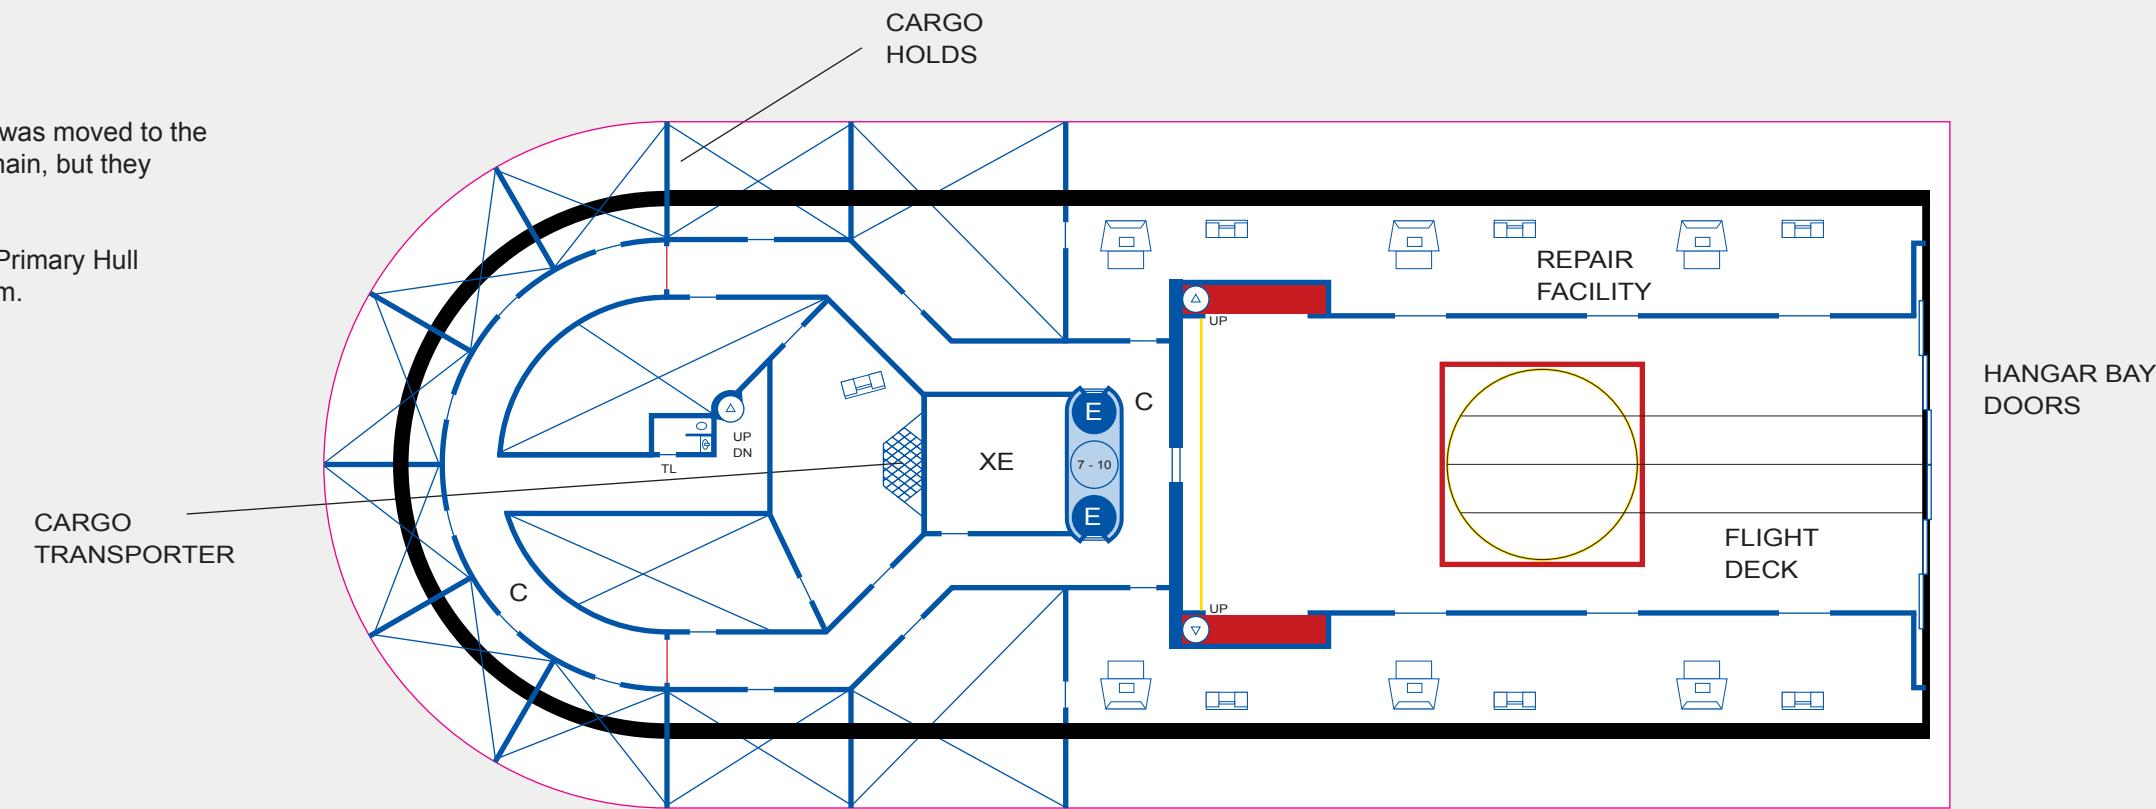

There are Photon Torpedo Launchers on many other ships at the front of this deck with Torpedo Storage on each side. Since this class of ship does not have torpedoes, the configuration of the Cargo Holds has been modified and the Cargo Transporter Room has been enlarged / optimized for peak performance.

DECK 11
Phasers are located on this deck.

Tractor Beam equipment was located around the perimeter but it was moved to the Hangar Bay. The housings for the 3 Tractor Beam Controllers remain, but they are empty.

The 3 pale gold-coloured recessed rings on the underside of the Primary Hull absorb and re-direct any back-scatter created by the Tractor Beam.

DECK 12
The Lower Sensor Dome is located here.
