

NOTES

DECK 10

The ship's main Sanitary Waste Recovery System is located at the front of this deck.

The rest of this deck contains Material Reclamation and Fabrication machinery. Two more hatches (similar to the hatches on Deck 9, as mentioned on the previous page) could allow for transfer of rare elements required in various manufacturing processes.

DECK 10 VENTRAL

This is a Lounge.

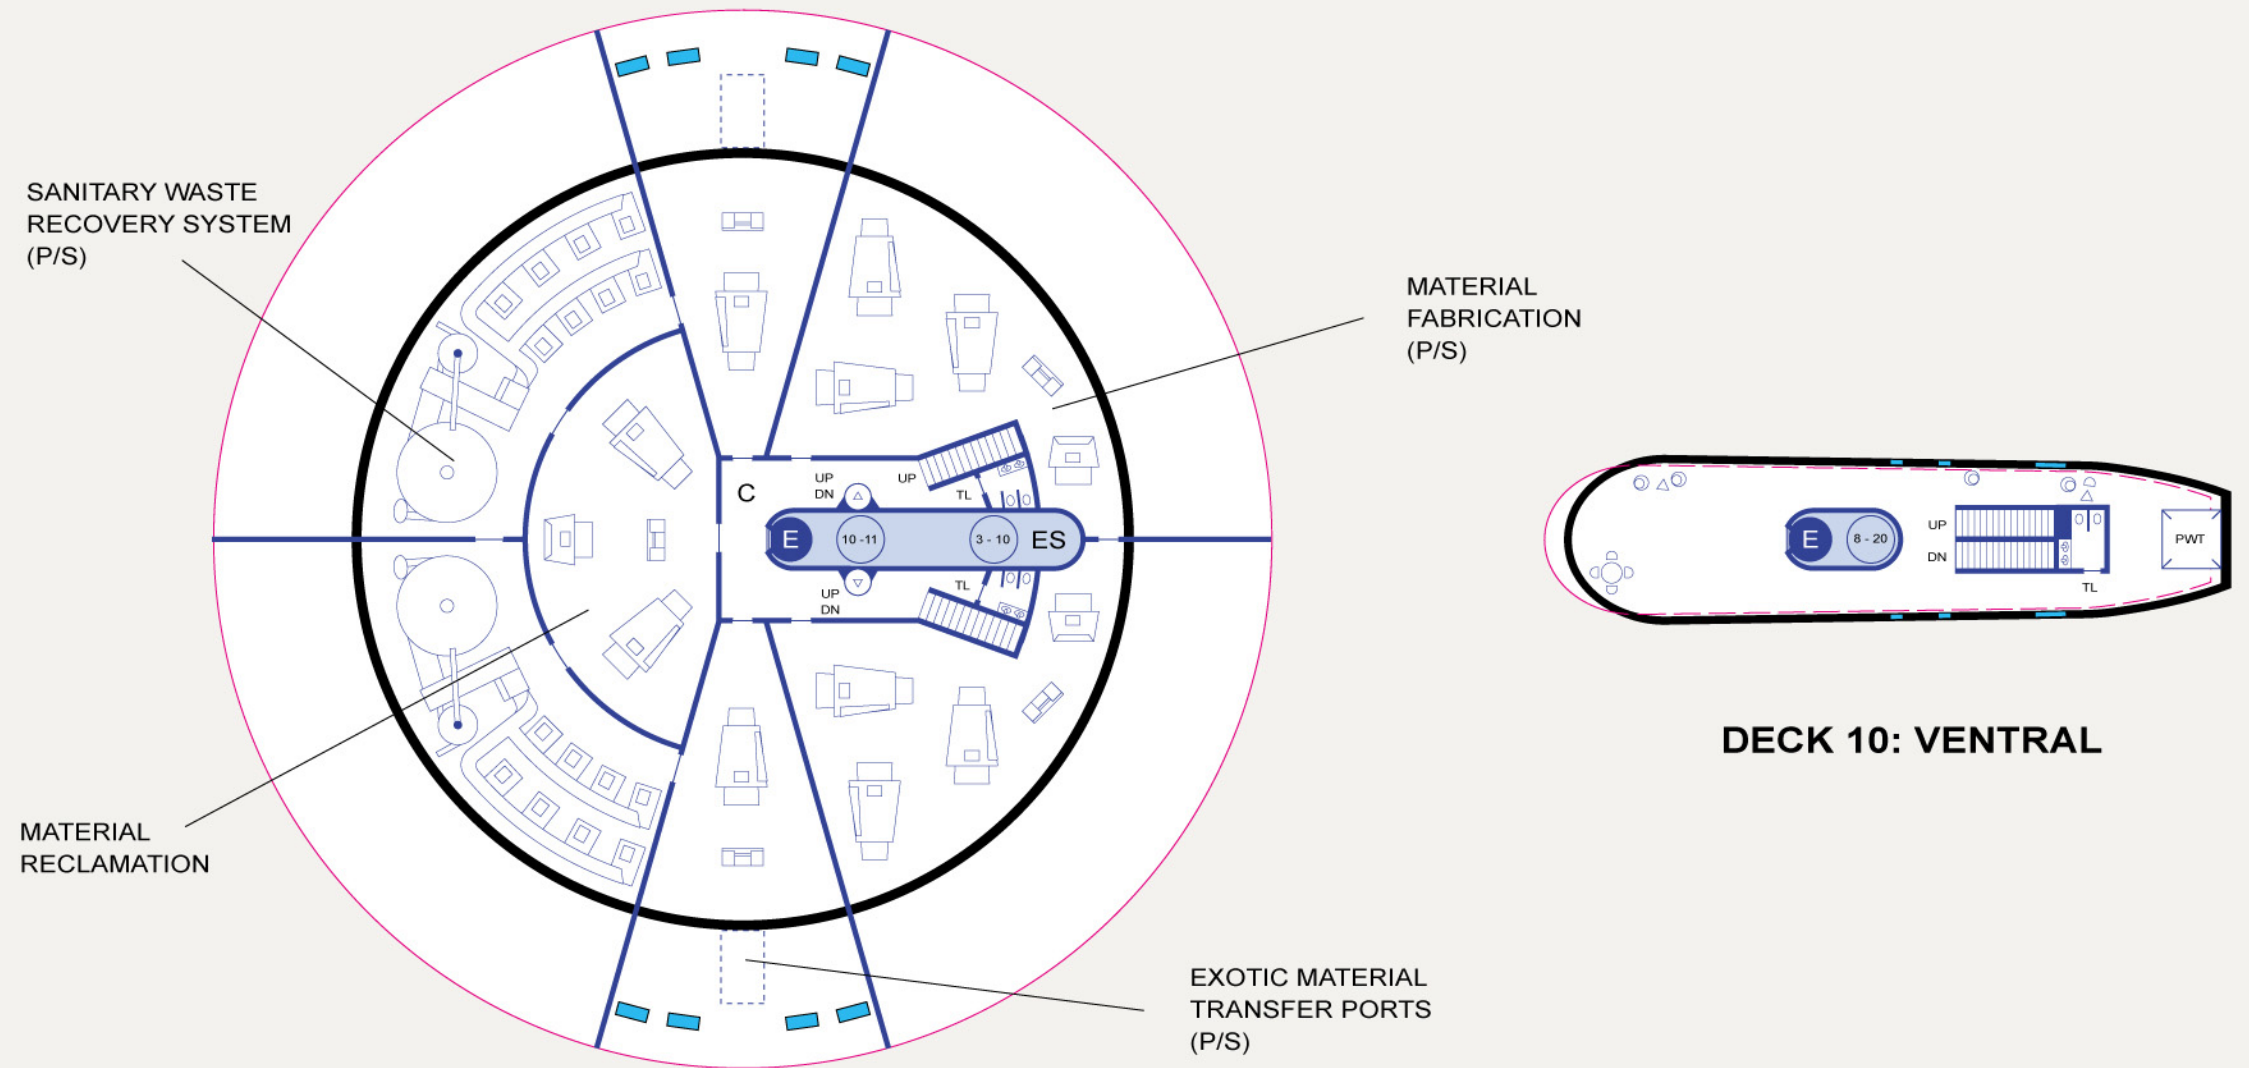

DECK 11

The forward Phasers and the Phaser Control Room are on Deck 11.

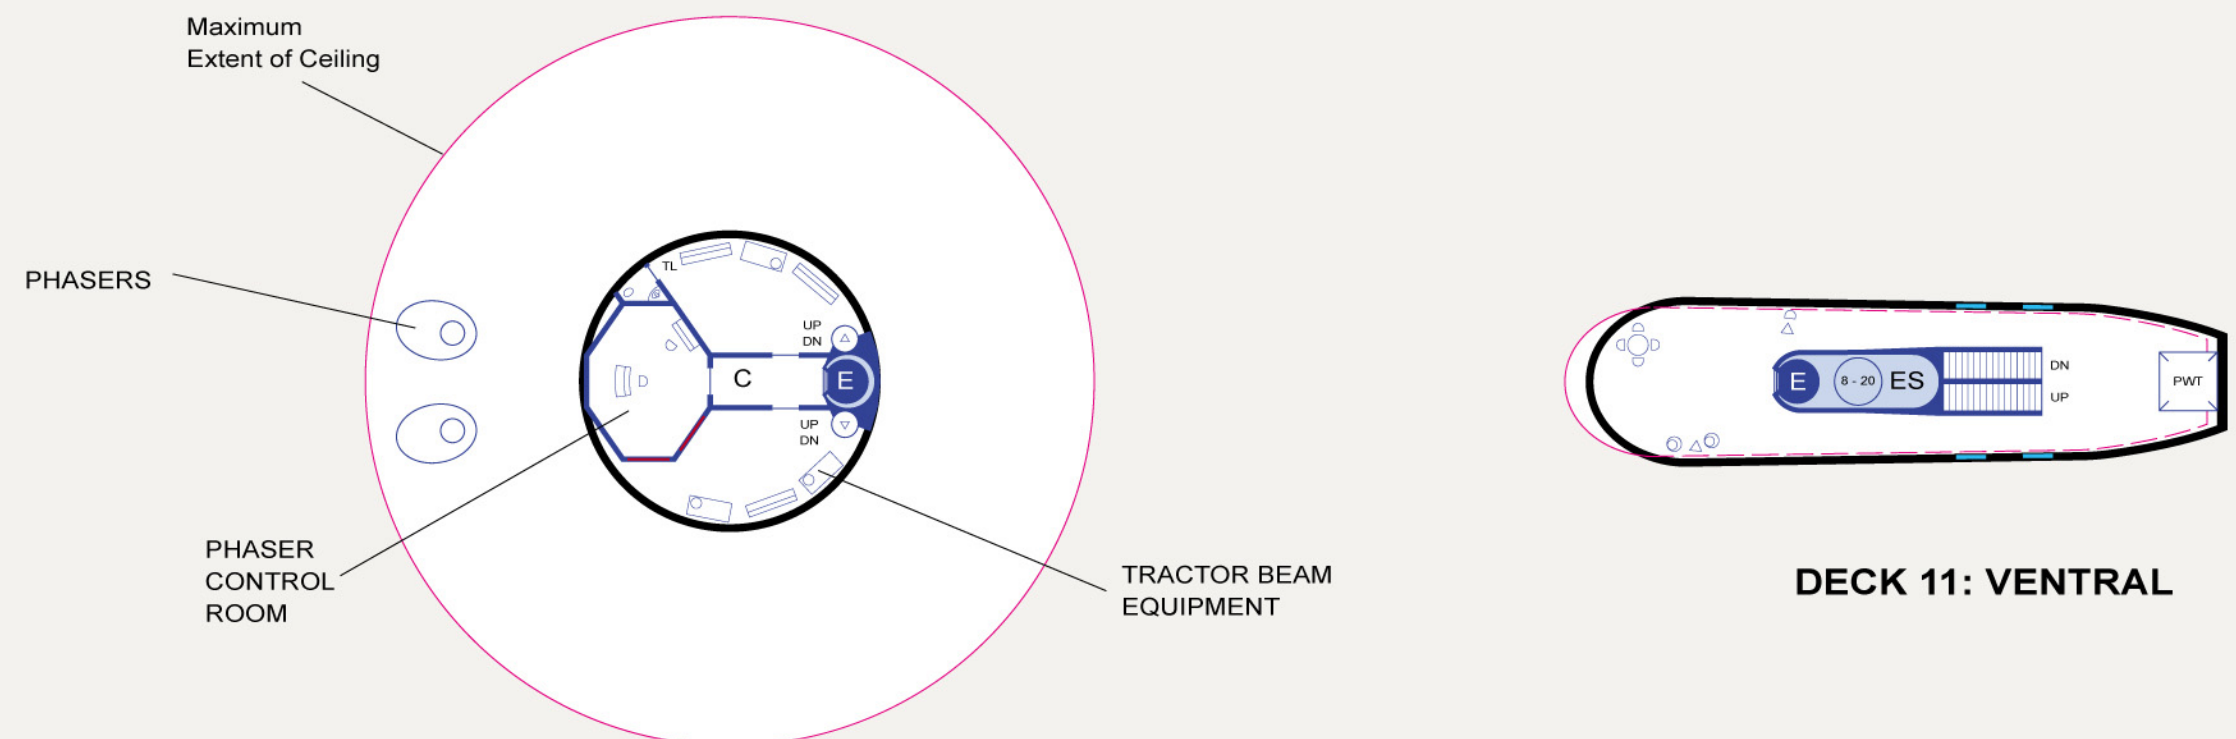

As on the Heavy Cruiser, the equipment around the perimeter is for the Tractor Beam. The Tractor Beam Controllers are one level below.

DECK 11 VENTRAL

This is a Lounge.

DECK 10: MANUFACTURING AND FABRICATING

DECK 11: PHASERS AND PHASER CONTROL
