

NOTES

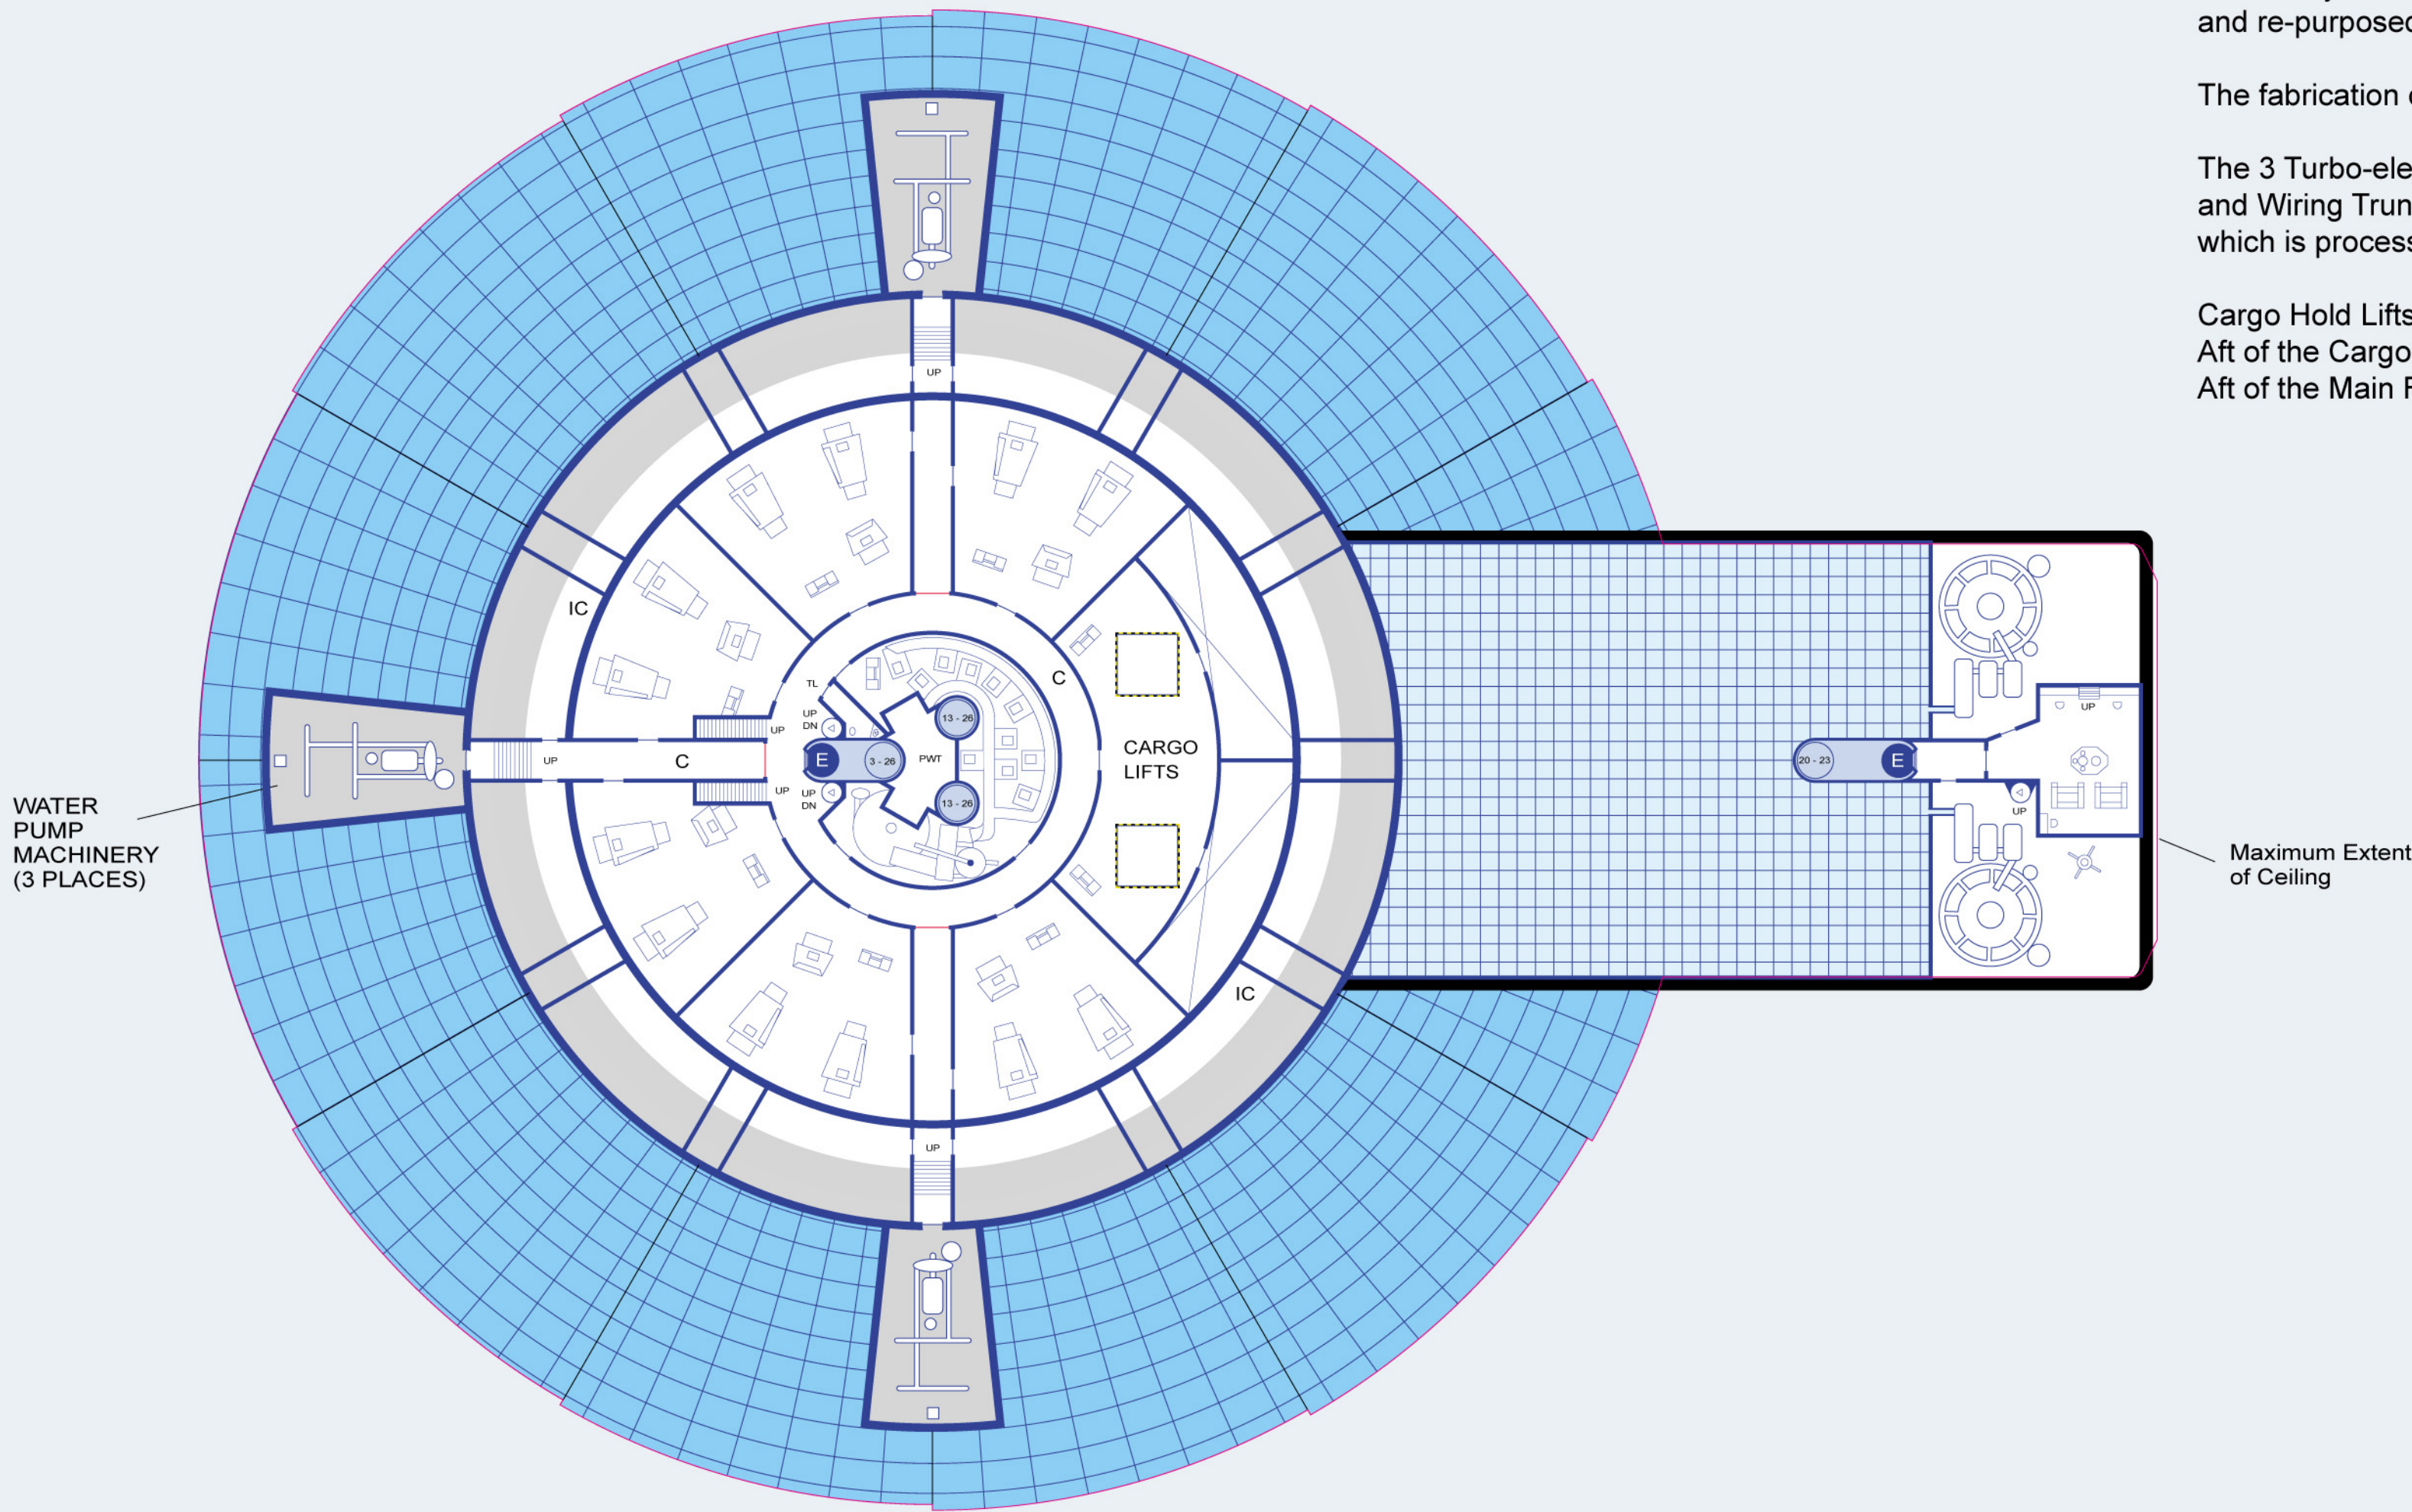

DECK 23
The main Fresh Water Tank is located around this deck and reaches up to Deck 20.

As on Deck 15, the Clamshell Structural Support Beams are located in the ring-shaped Inspection Corridor. Within this corridor was the automated machinery for deploying the clamshell; that machinery has since been removed and re-purposed.

The fabrication of oversized items takes place here.

The 3 Turbo-elevator shafts are not connected. Between them is the Piping and Wiring Trunk which serves all the decks above. This includes sewage control, which is processed by the Sanitary Waste Recovery System located in the middle.

Cargo Hold Lifts start on this deck and reach up to Deck 14.
Aft of the Cargo Lifts is the Main Fuel Tank.
Aft of the Main Fuel Tank is the lower level of Main Engineering.

DECK 23: FRESH WATER / MATERIAL FABRICATION / FUEL / ENGINEERING
