

If printed 28 inches wide (from black-outlined edge to black-outlined edge) the scale of these drawings is 1/350.

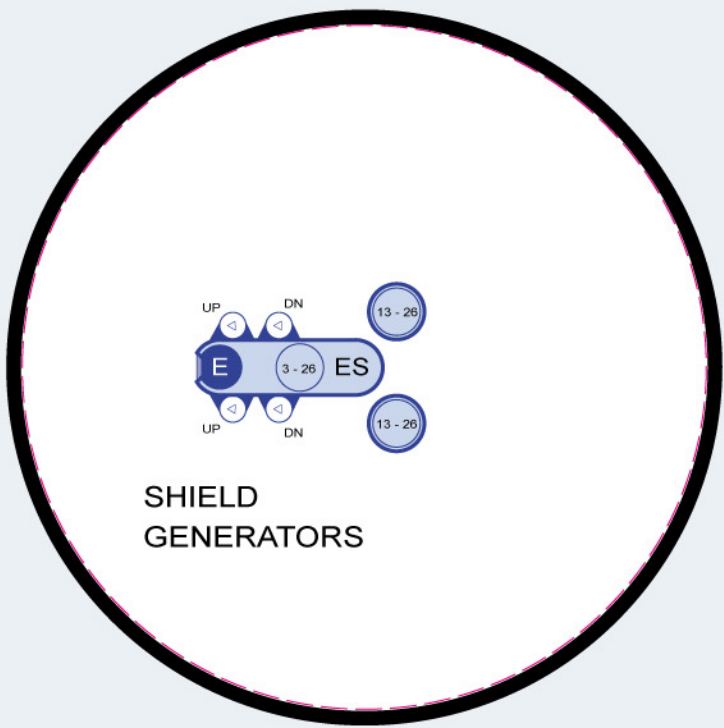

NOTES

DECK 24
Since these Space Stations can be located far from the protection of the United Federation of Planets, Shield Generators play an important role in "normal" Space Station operations.
These Shield Generators occupy 4 decks.

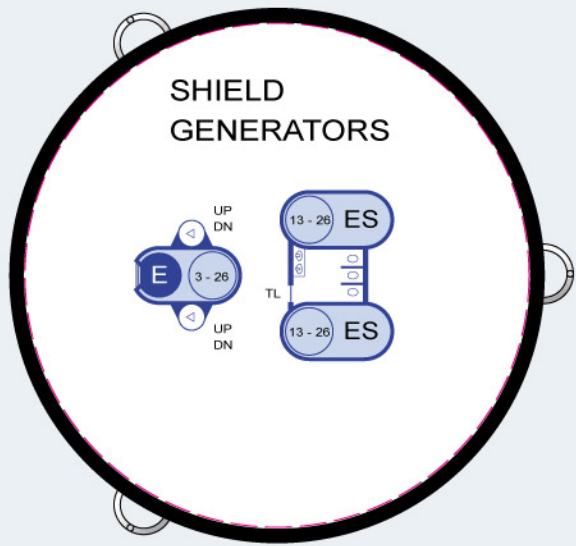

DECK 25
The Shield Generators continue on this deck.
The external detail was borrowed from the version of the Space Station seen in the episode "Trials and Tribble-ations" from DEEP SPACE NINE. This external detail is not visible in STAR TREK (The Original Series).

DECK 27
The Boom Structural Supports fill most of this deck.
Inspection stations are across the entire deck. Environmental Lockers are located in the center.

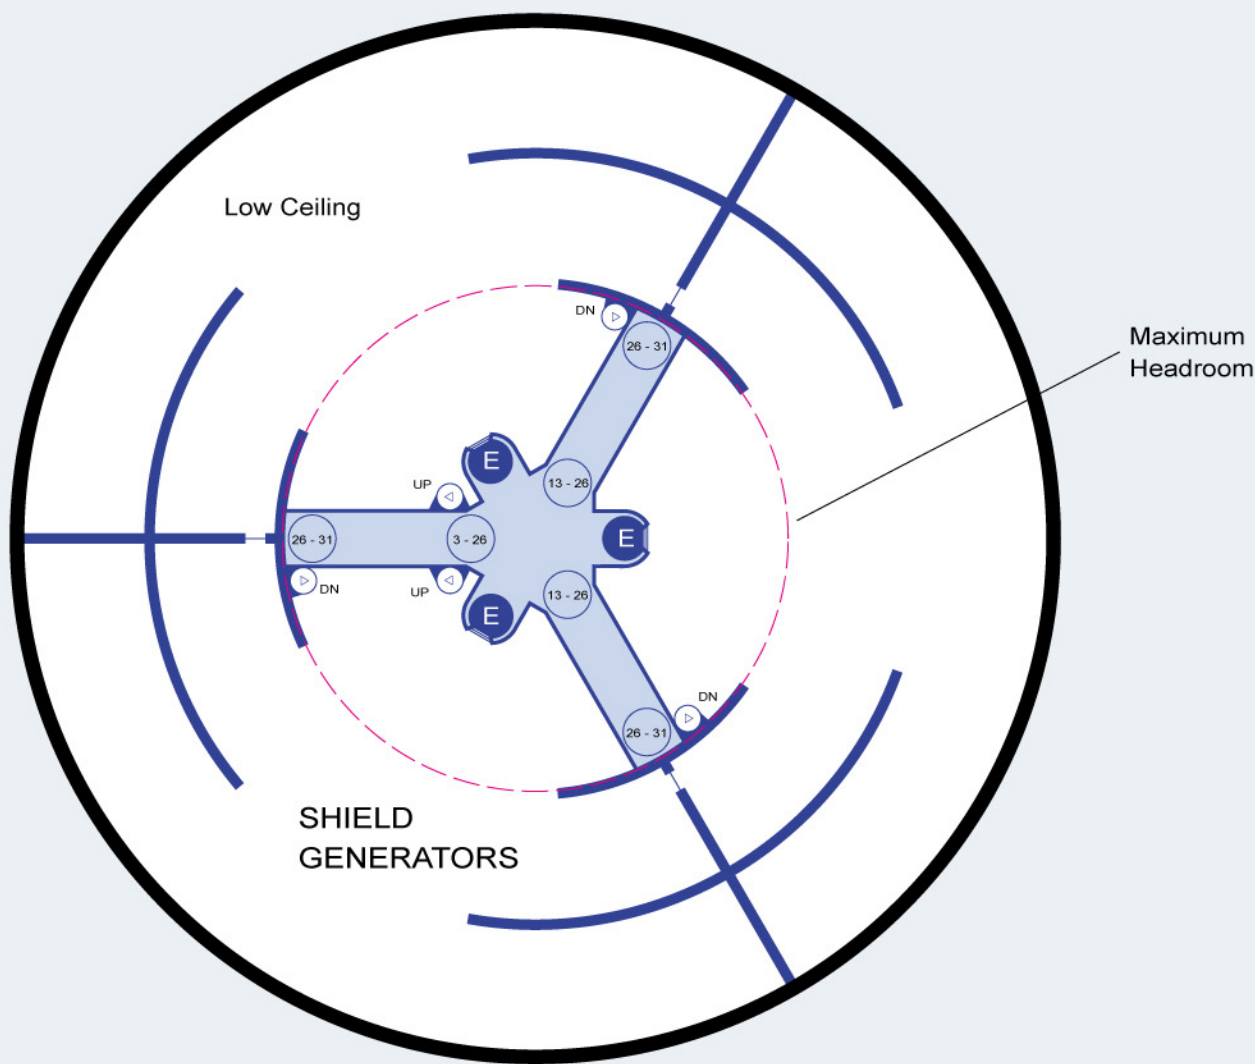

Some Shield Generator equipment is also on this deck.

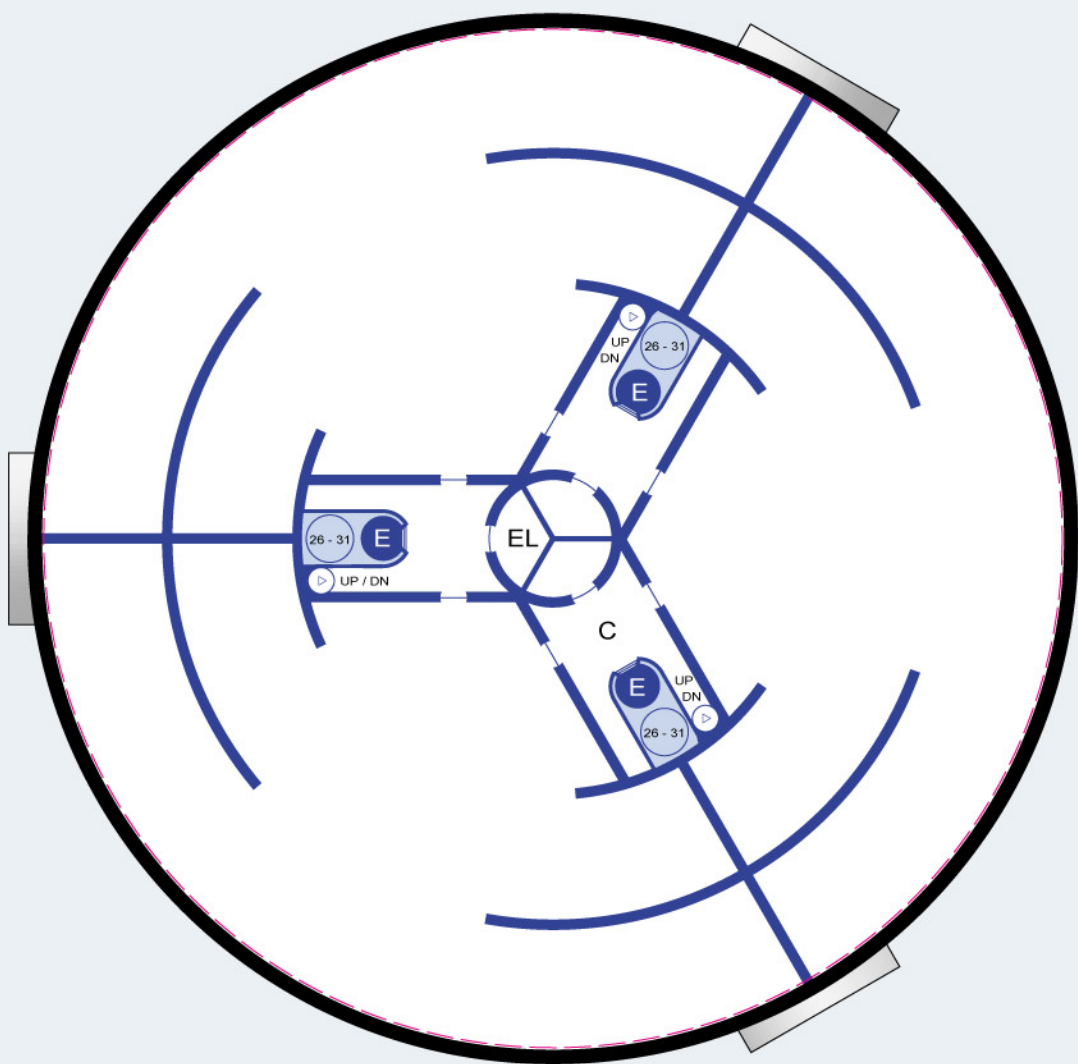

DECK 24: SHIELD GENERATORS

DECK 25: SHIELD GENERATORS

DECK 26: SHIELD GENERATORS / ELEVATOR SHUNTS

DECK 27: SHIELD GENERATORS / BOOM SUPPORTS
