

If printed 28 inches wide (from black-outlined edge to black-outlined edge) the scale of these drawings is 1/350.

NOTES

DECK 30

As on Deck 28, this deck is devoted to Crew Quarters, with some personal Storage Rooms in the middle ring. This deck is well connected to the decks above and below with stairs and turbo-elevators.

The 3 Turbo-elevator shafts each have an access station opening inward and outward.

A Briefing Room is located in the center; this is often used as a Games Room.

The forward (red) hull and connecting arm is shown on Pages 22, 23, and 24.

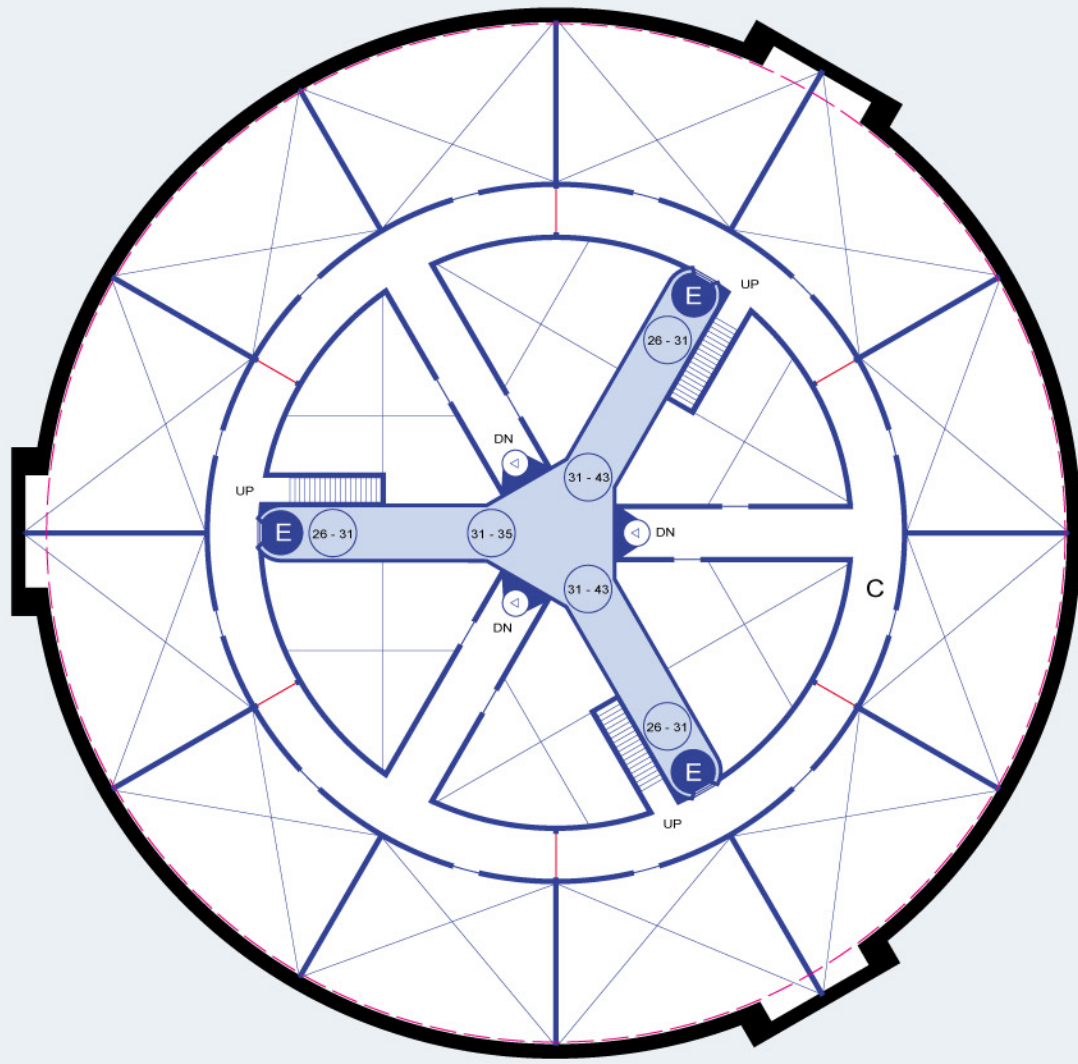

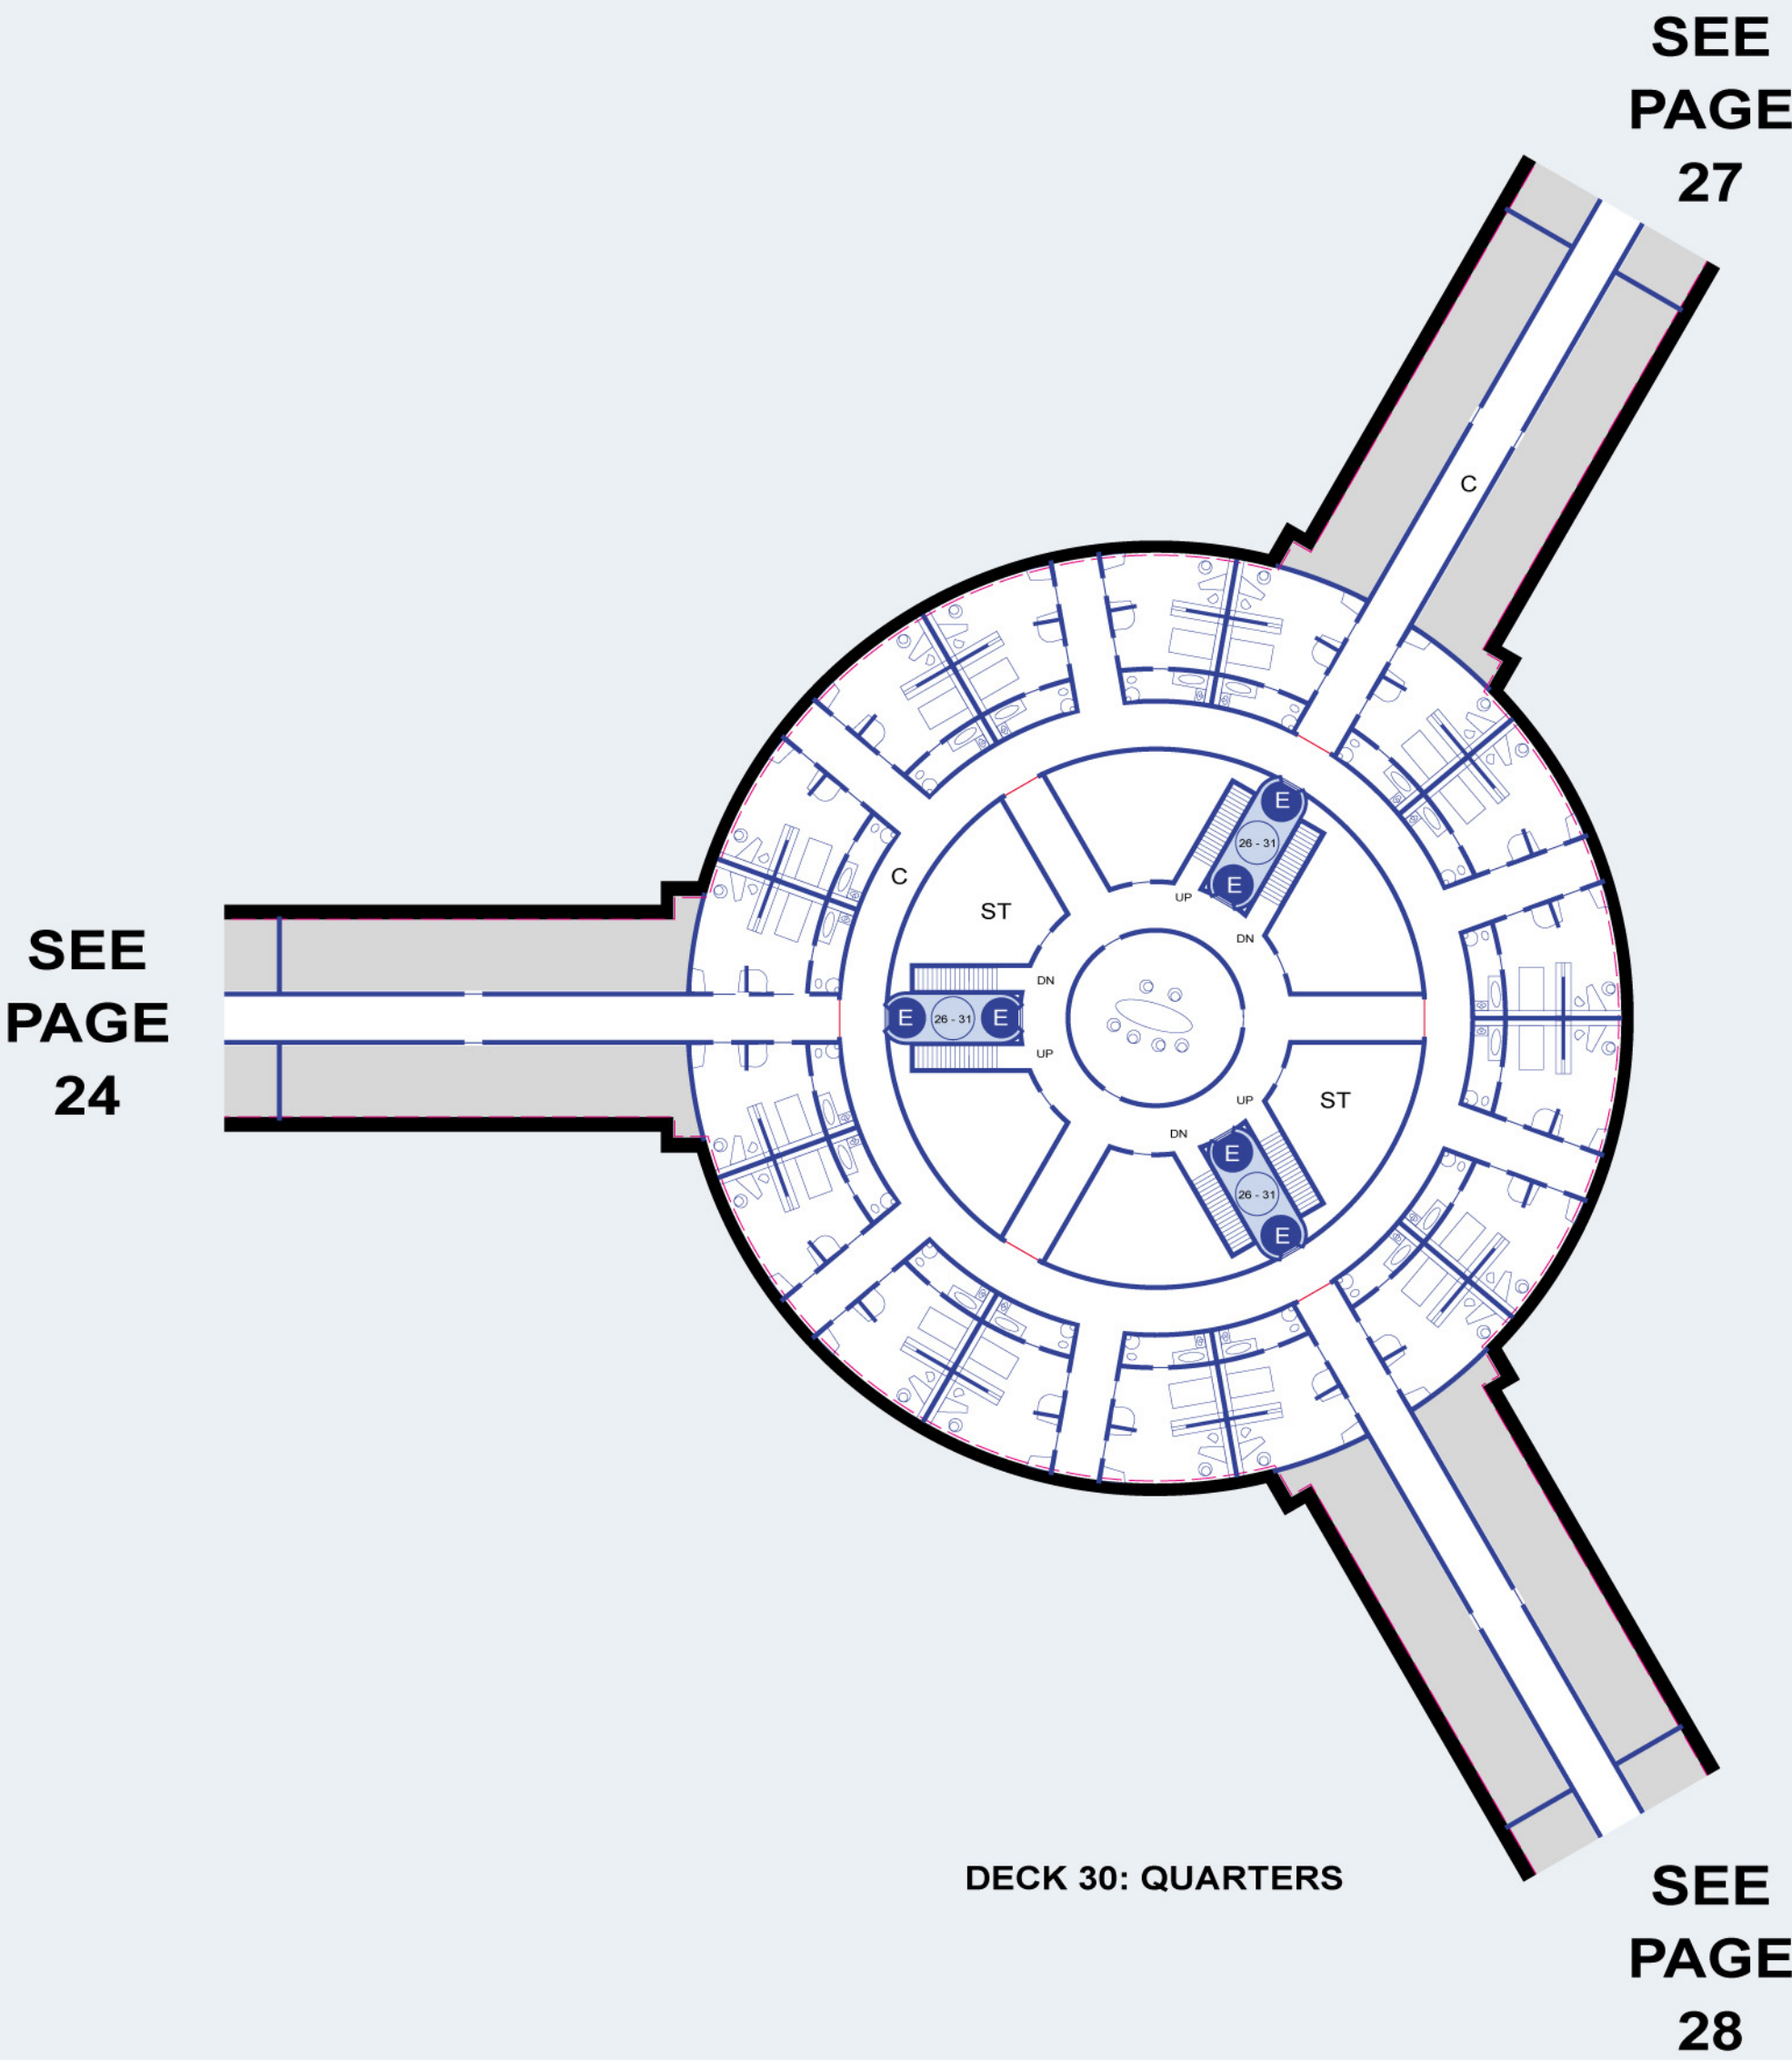

The starboard (yellow) hull and arm is shown on Pages 25, 26, and 27.

The port (green) hull and connecting arm is shown on Pages 28, 29, and 30.

DECK 31

The Cargo Holds shown are mostly for crew, for personal storage.

As mentioned earlier, on Deck 26 the 3 Turbo-elevator shafts spread apart to better serve Decks 27 to 31, but now the shafts come together again in the middle. They do this so as to fit through the next 5 decks, all of which are very small.

DECK 31: CARGO / ELEVATOR SHUNTS
