

## NOTES

### DECK 11

Phasers are located on this deck.

The equipment around the perimeter is for the Tractor Beam. The 3 Tractor Beam Controllers direct the Emitter so that the beam can locate and lock onto the object being towed.

The 3 pale gold-coloured recessed rings on the underside of the Primary Hull absorb and re-direct any back-scatter created by the Tractor Beam.

### ENGINE INSPECTION STATION

The Matter-Antimatter Reaction Chamber is located here. The access hatch on Deck 10 is usually closed. This entire level is heavily shielded.

### DECK 12

The Lower Sensor Dome is located here.

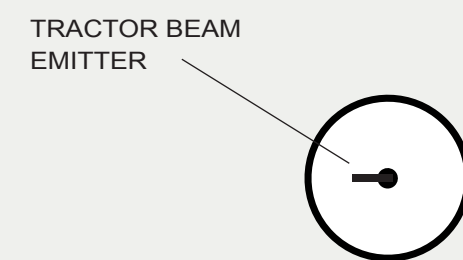

The Tractor Beam Emitter is at the bottom of the Lower Sensor Dome.

ENGINE INSPECTION STATION

DECK 11: PHASERS / TRACTOR BEAM

LYNCH CLASS HANGAR BAY (Looking Starboard)

DECK 12: SENSORS / TRACTOR BEAM
