

NOTES

DECK 11
Water Storage continues on this deck.

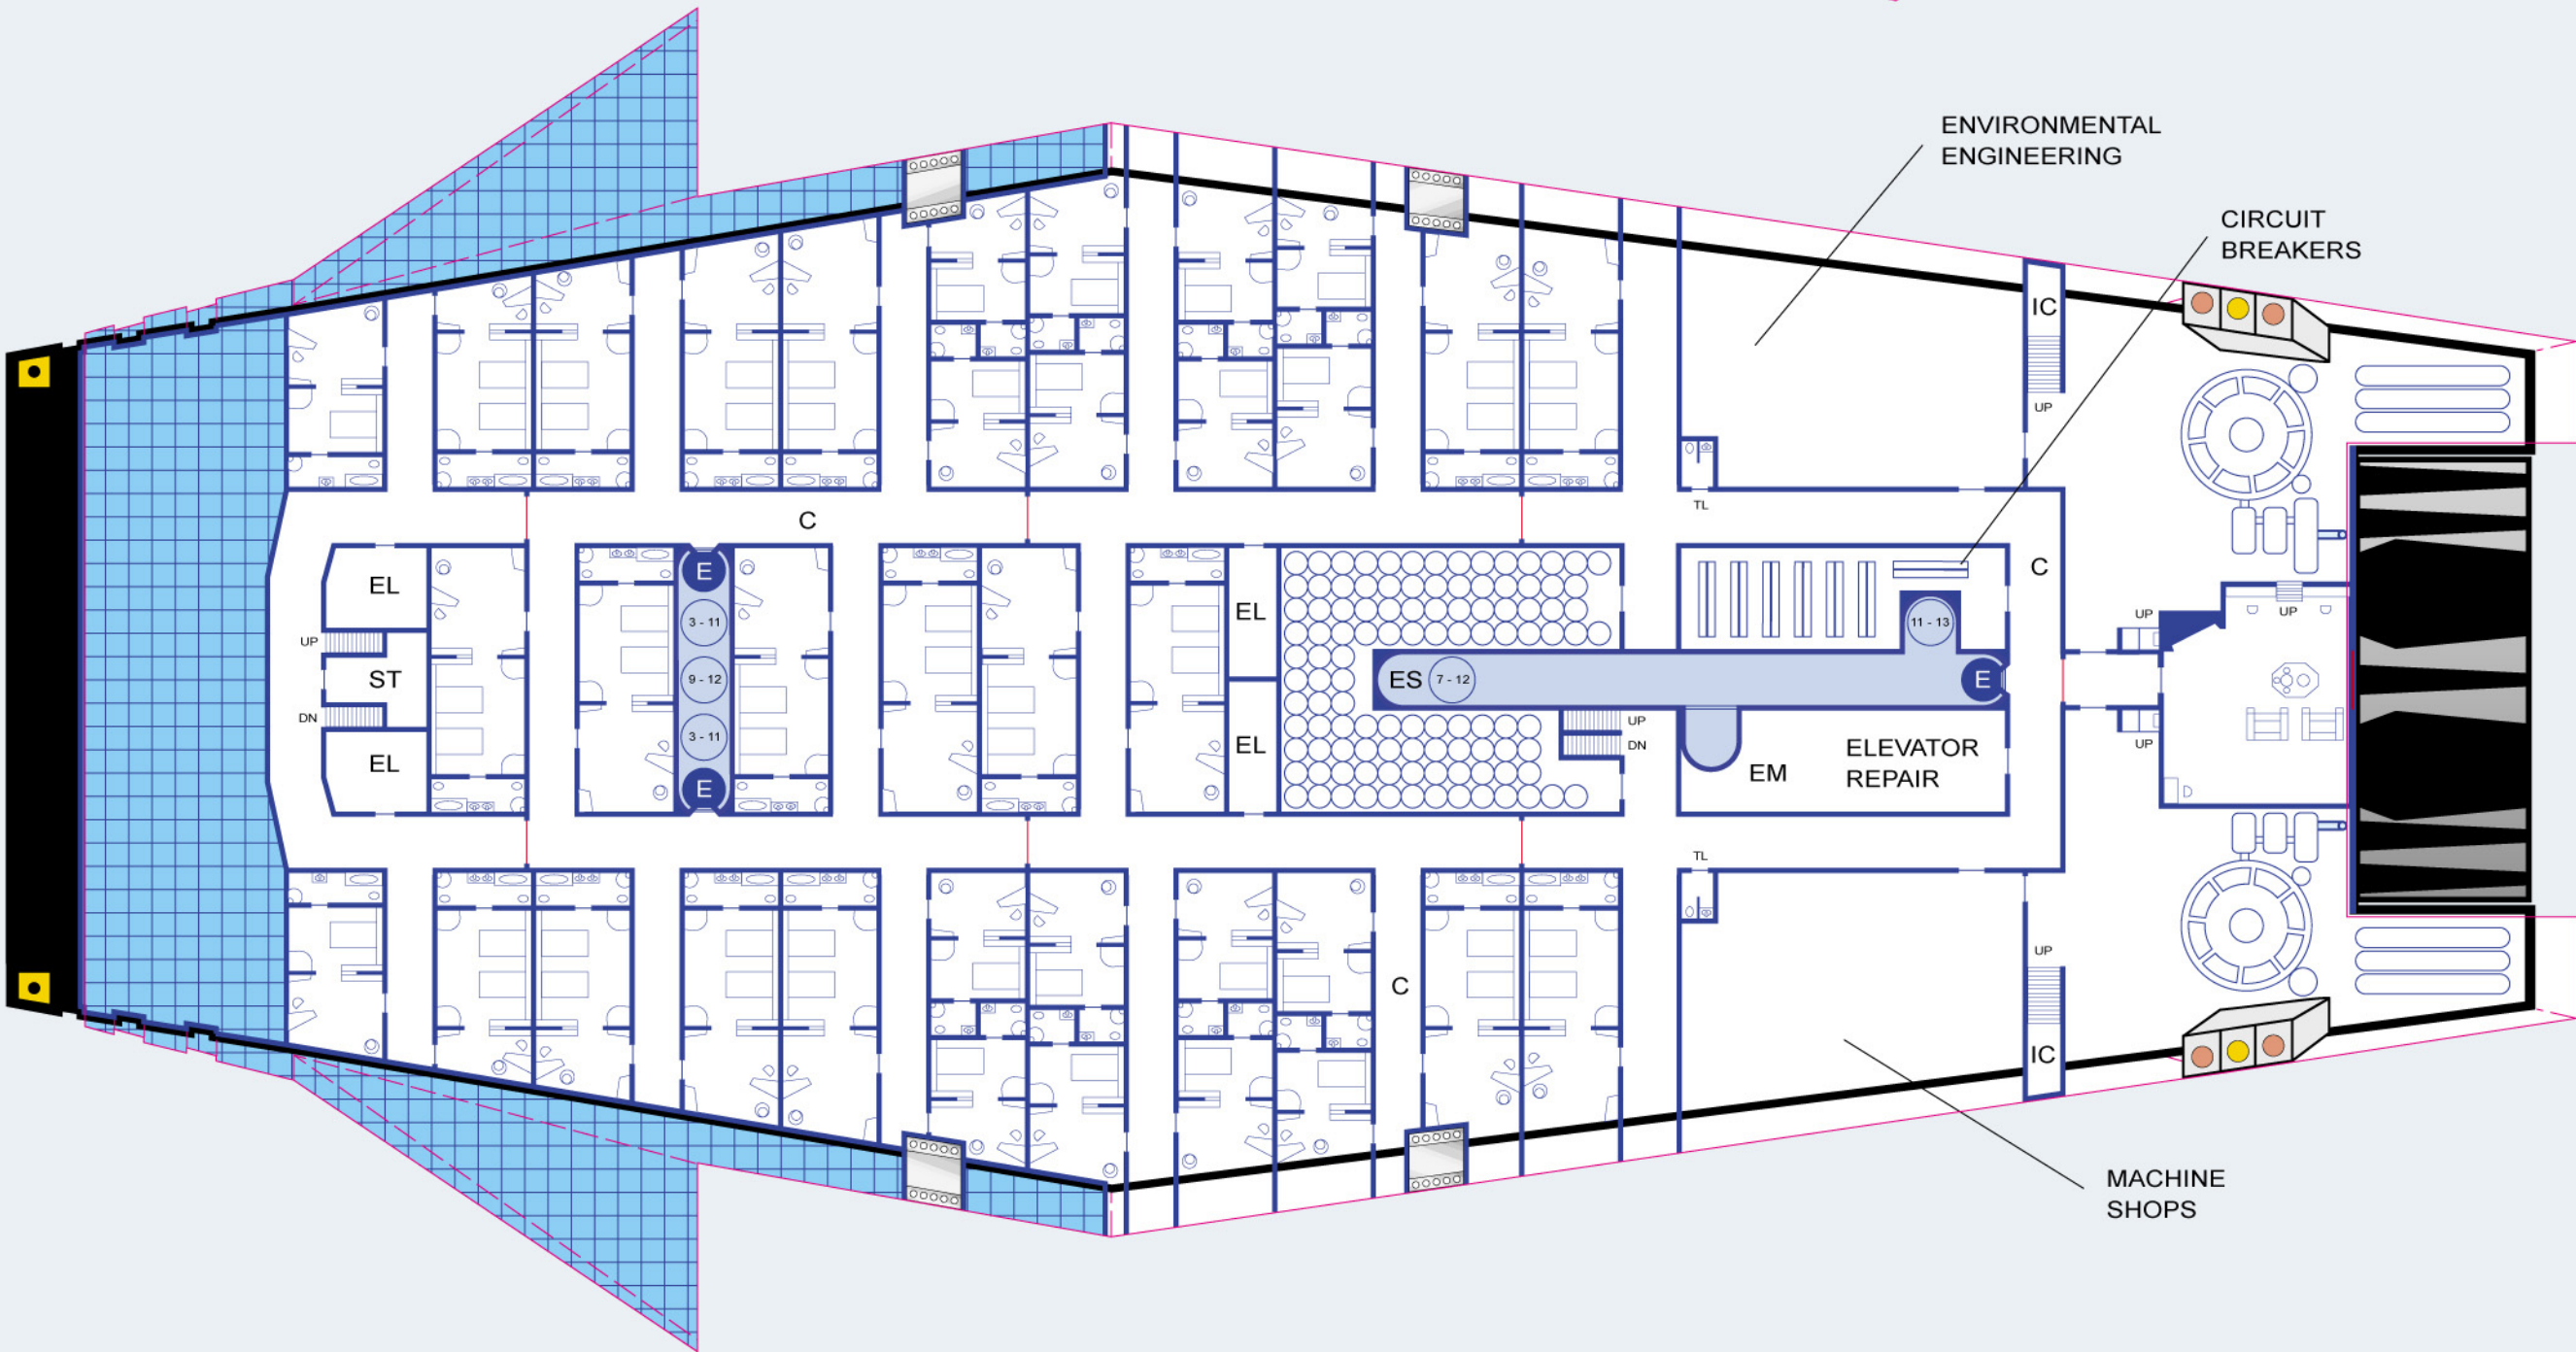

Crew Quarters are on this deck.

Main Engineering is at the rear of this deck. Ahead of Engineering on the port side are Machine Shops. Ahead on the starboard side is Environmental Engineering. Ahead of Engineering in the center is the Elevator Repair shop and the Circuit Breakers. Ahead of those two are Batteries.

Between Main Engineering and the Machine Shops is the beginning of the Inspection Corridor leading to the port Matter-Antimatter Reaction Chamber which are buried inside each Warp Engine.
Between Main Engineering and Environmental Engineering is the beginning of the Inspection Corridor leading to the starboard Matter-Antimatter Reaction Chamber which are buried inside each Warp Engine.
These corridors continue up to Deck 9.

The 3rd Turbo-elevator system appears on this deck.
The center and rear systems connect here.
