

NOTES

DECK 13
At the front of this deck are 2 Laser Turrets and 2 Particle Bean Cannon Turrets.

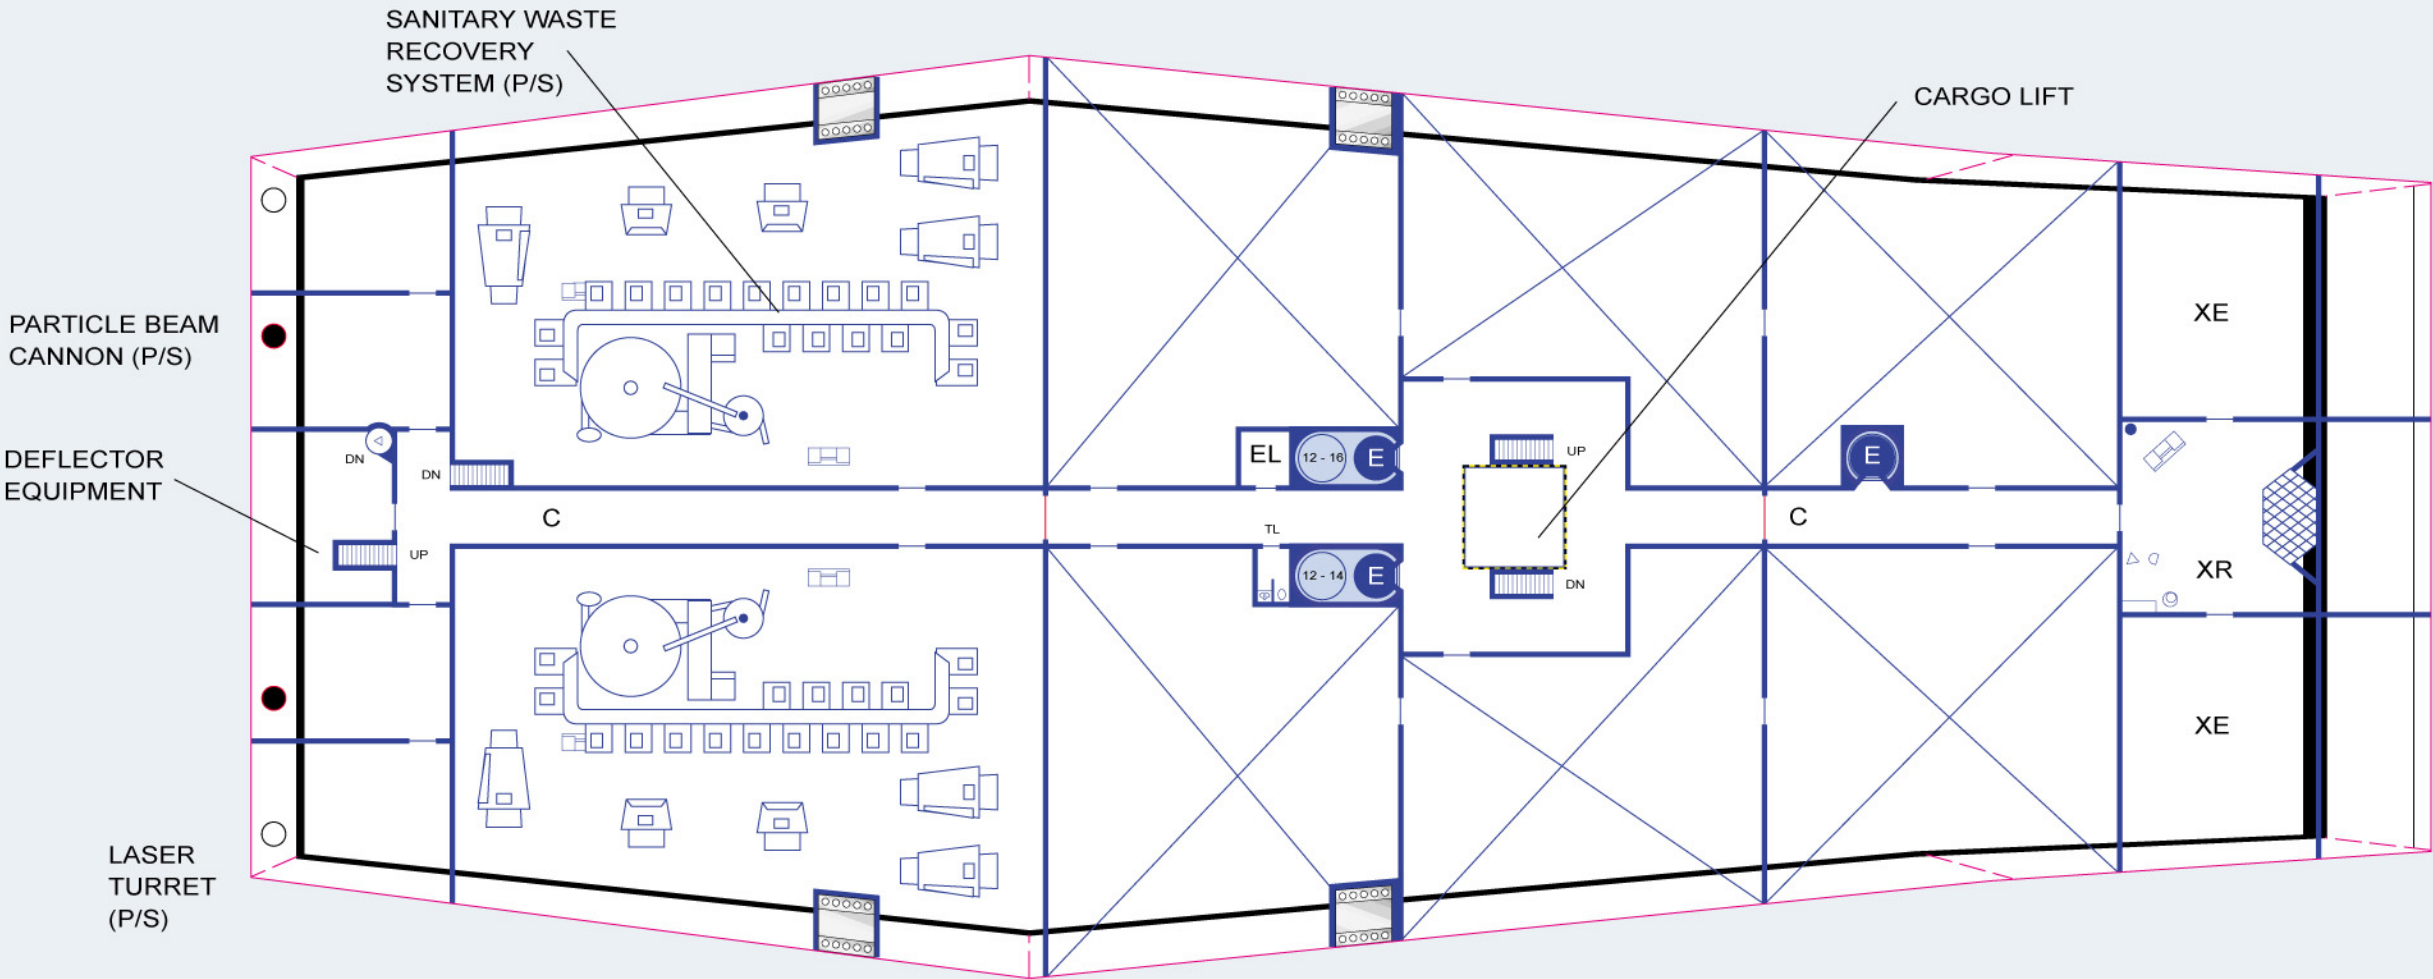

Between them is the top level of Deflector Equipment. This equipment continues downwards for 2 more decks.

Two Sanitary Waster Recovery Systems are located aft of the turrets.

Cargo Holds occupy most of the rest of this deck.

Aft of the Turbo-elevators is the Cargo Lift. It reaches from this deck down to Deck 16.

At the extreme aft end is the Cargo Transporter System and on either side of it is the Transporter Equipment. Transporters will not be approved for life forms until several years later.
