

If printed 17 inches tall (from black-outlined edge to black-outlined edge) the scale of these drawings is 1/350.

NOTES

DECK 9CM

More Cargo Holds on this deck provide raw materials for the Manufacturing and Fabrication Equipment located here.
Weapon Turrets are located across the front, as well as 3 Space Energy Field Sensors.
The Deflector Equipment starts on Deck 9 and reaches down 4 decks.
Maneuvering Thrusters are to port and starboard, and more Weapon Turrets are outboard of the Maneuvering Thrusters but those turrets can only be accessed from the deck above.
Sickbay is in the center and the Laundry Facilities are to port of Sickbay.
Engineering is across the rear of the deck.

DECK 10CM

The majority of the Crew Quarters are located on this deck.
The Cargo Holds at the port and starboard extremes are accessed from the deck above.
The second access point from the ship to the CM is located here. The first one is on Deck 7.
Across the rear is the Separation Equipment.
Batteries fill the rest of the deck.

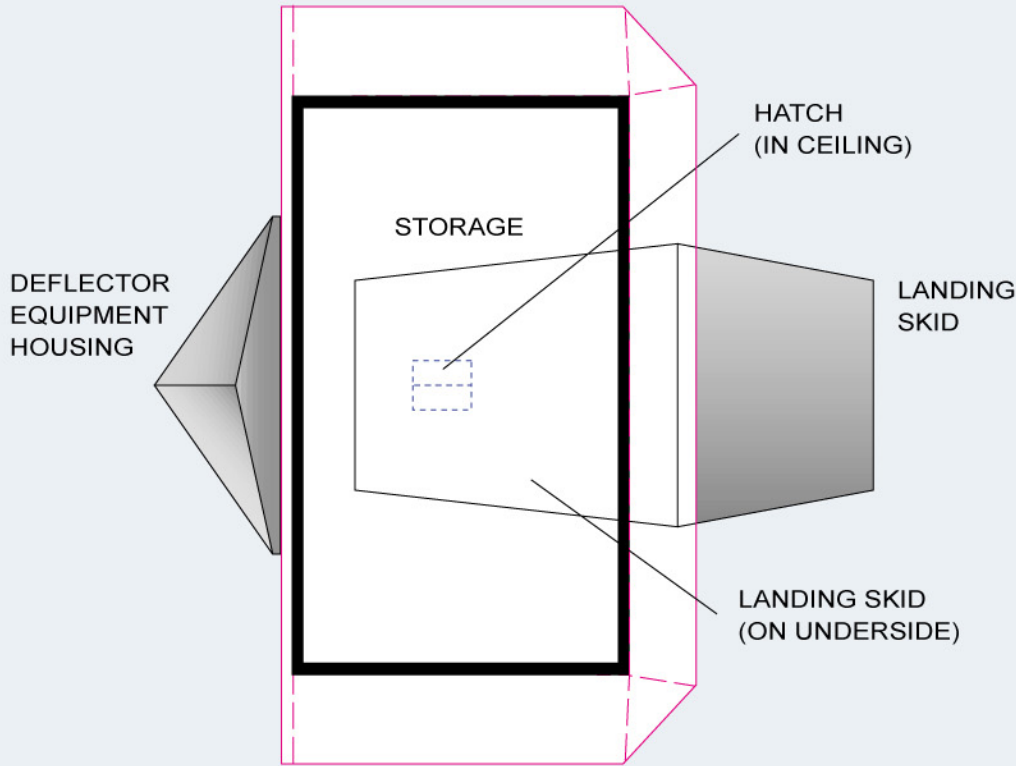

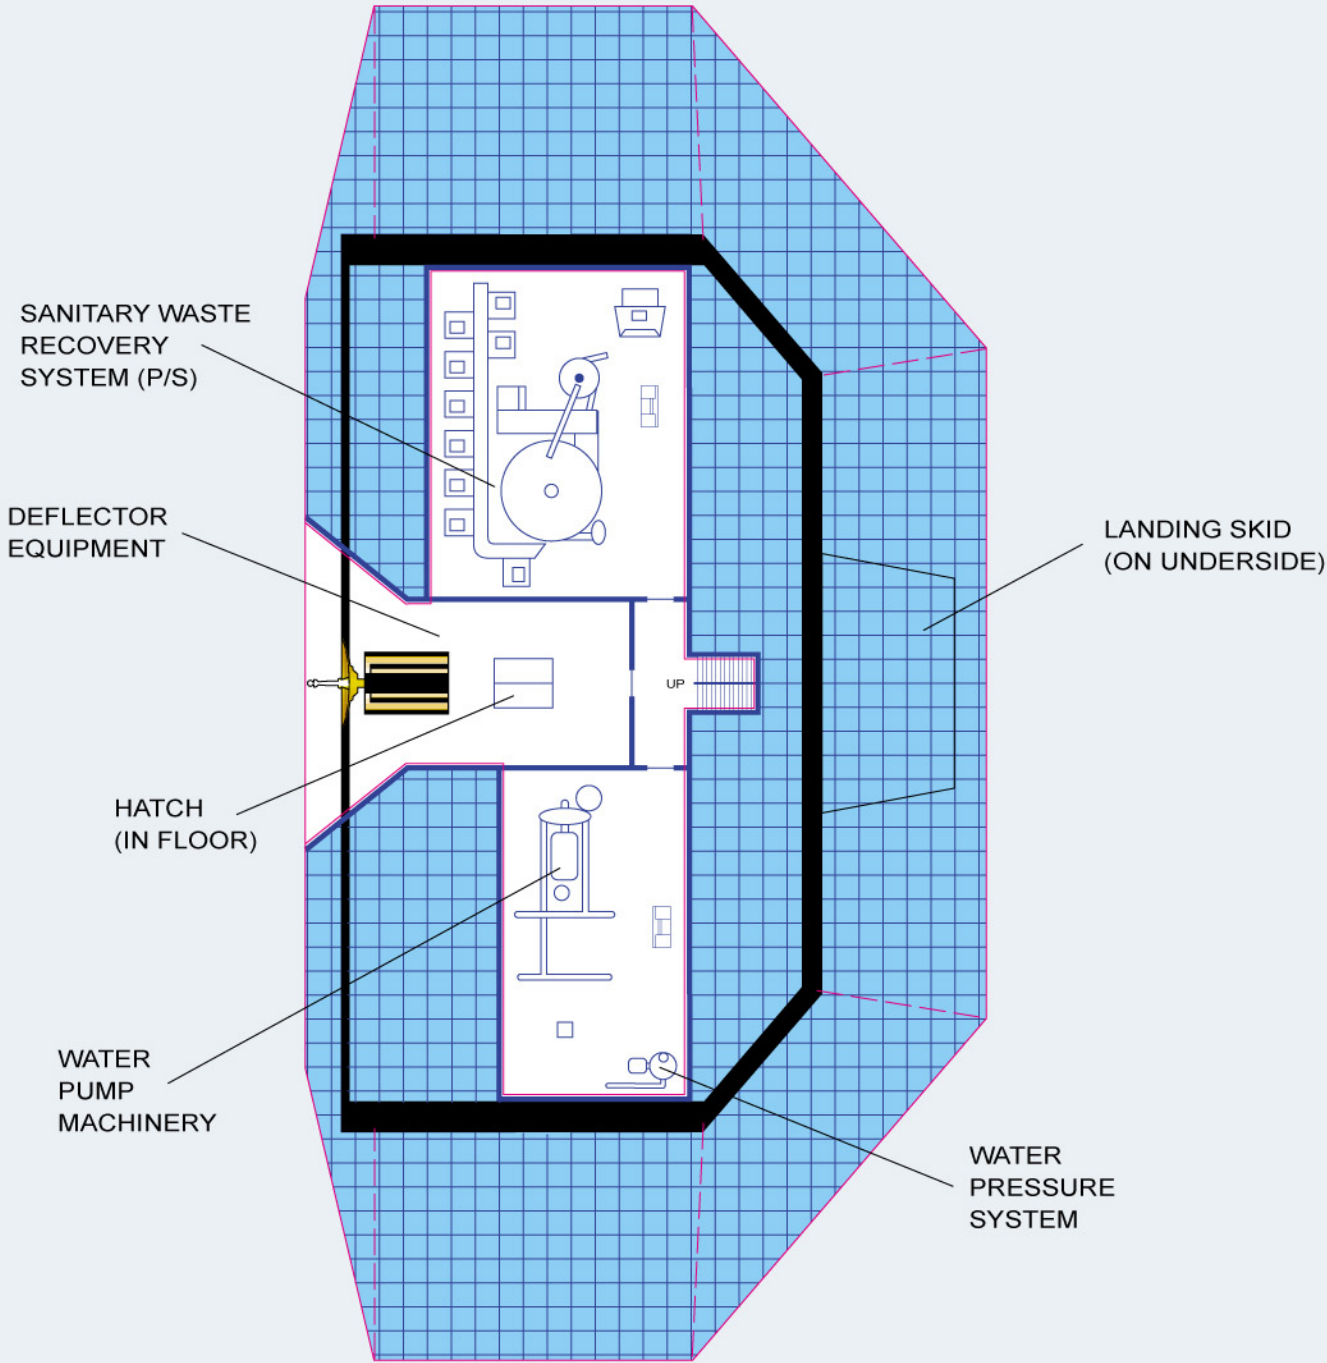

DECK 11CM

In the center-front is the Deflector Equipment.
Water Storage fills most of this deck. To port are the Water Pumps, Water Pressure Systems, and Filters.
To starboard is the Sanitary Waste Recovery Equipment.

Deck 12CM

This deck has a low ceiling.
A hatch from Deck 11 provides access to the Storage Compartments located here.

The Landing Skid is mounted externally, immediately below Deck 12.

DECK 11: SANITARY WASTE RECOVERY

DECK 12: STORAGE / LANDING SKID
