

NOTES

SEPARATION PLANE
This is located between Deck 8 Dorsal and Deck 9 Dorsal.

DECK 9 DORSAL
The disconnection equipment is located on this deck. This area is kept clear and is difficult to enter except by authorized personnel. It is accessible only by ladders.

DECK 9
Most of this deck is unchanged from the original configuration of the Constitution-class ship. Material Reclamation and Fabrication is probably not a 100% efficient process. Therefore, these 2 hatches could allow for transfer of rare elements required in various manufacturing processes.

Deflector Equipment is located in the center of the deck.

The Main Sensor Dish was not installed on later versions because the Deflector System and Sensors in the bow of the Primary Hull were found to be adequate. On those later versions, the Deflector Equipment on Deck 9 was replaced with Material Reclamation equipment.

SHIP DATA

LENGTH: 242 m
WIDTH: 127 m
HEIGHT: 60 m

TRANSPORTERS
6-person: 4
22-person: 2
cargo: 2

SHUTTLECRAFT: 2

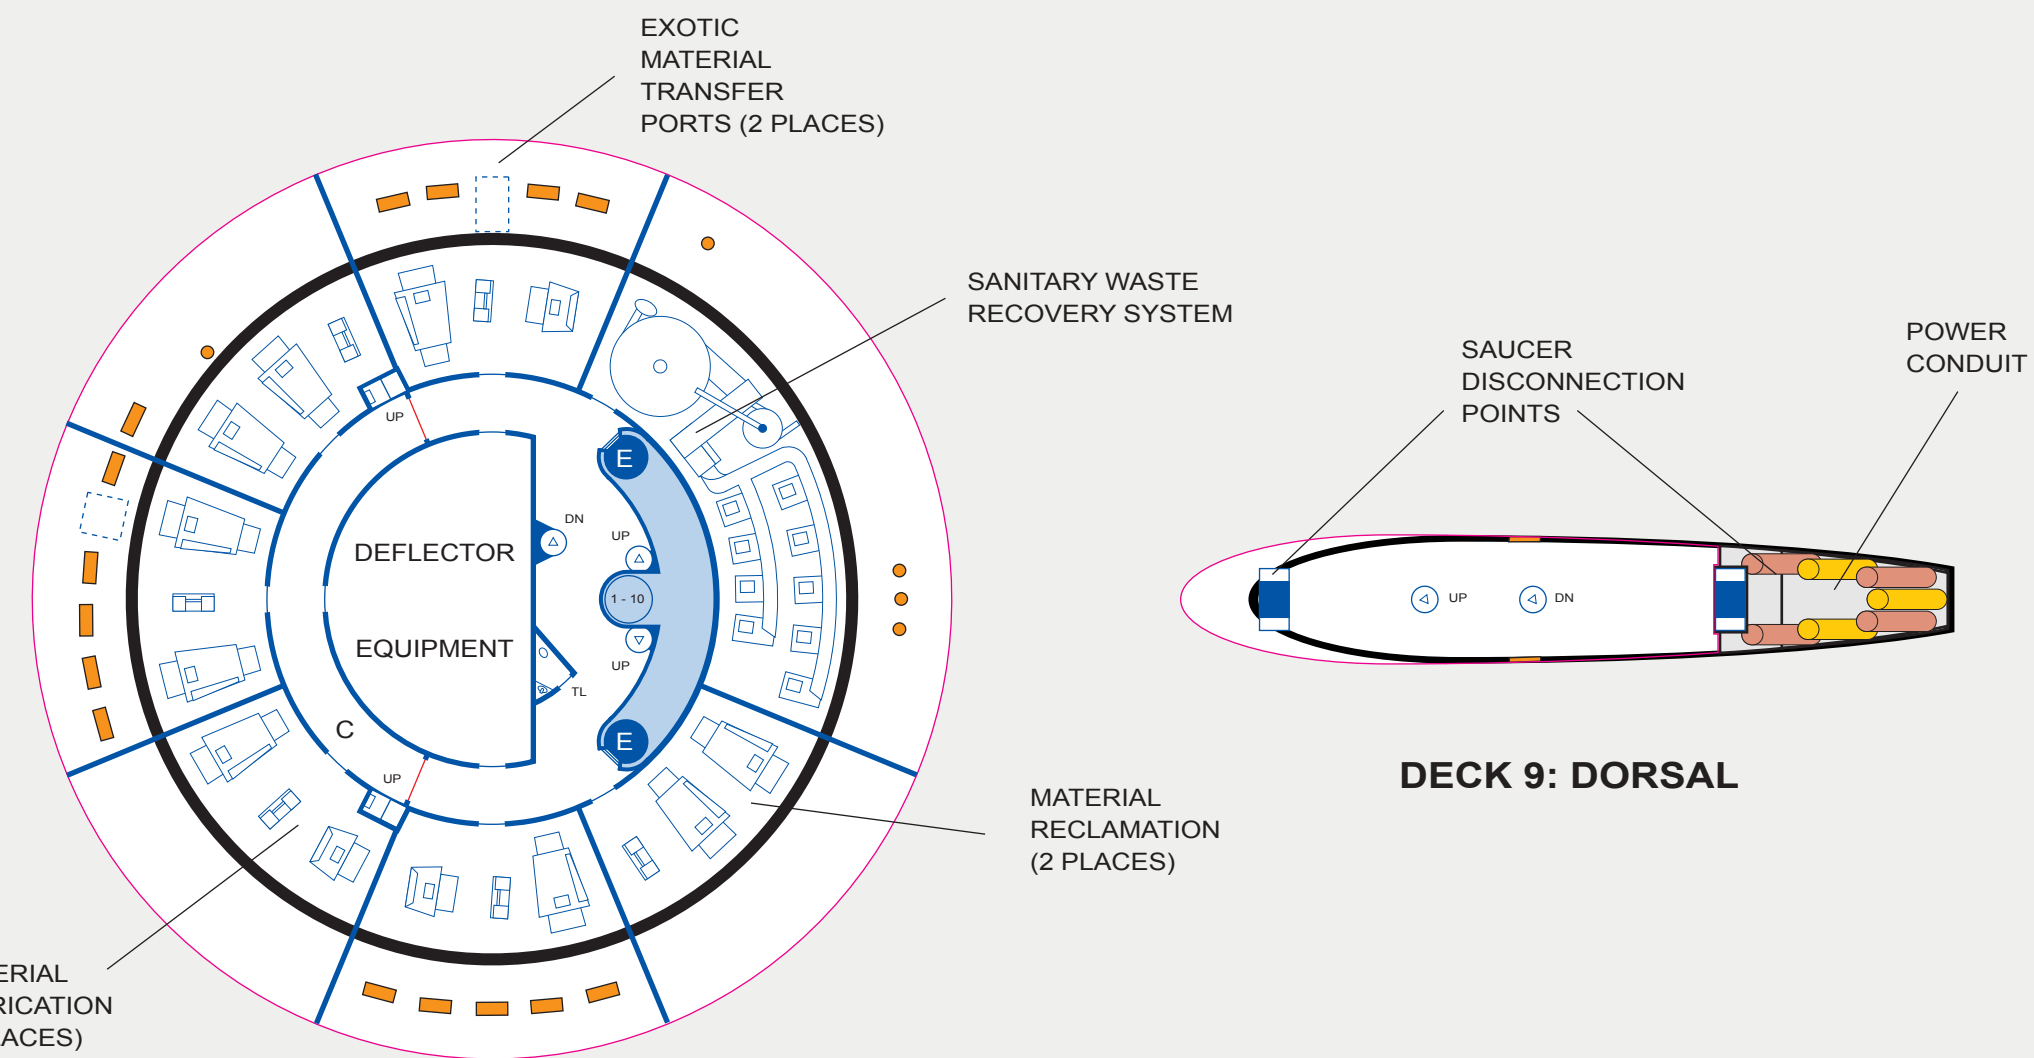

PHASERS
banks of 2: 3

TORPEDO TUBES: 2*

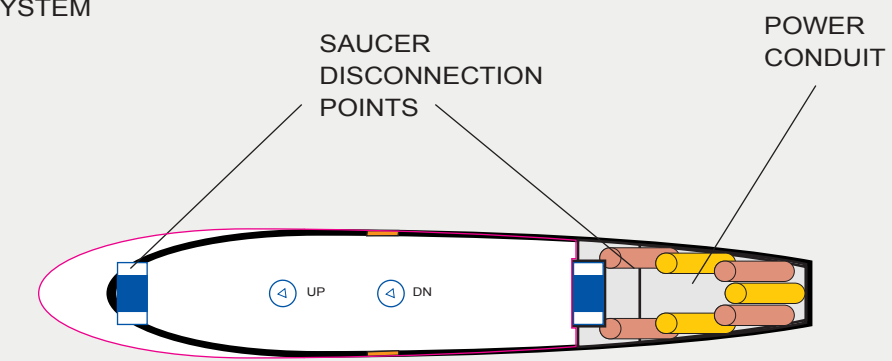

* sometimes 4

SEPARATION PLANE

DECK 9: FABRICATION FACILITIES

DECK 9: DORSAL
