BASIC INFORMATION

<u>Class Name</u>	:	Adamant
<u>Ships Name</u>	:	Uss Adamant
<u>Registry</u>	:	Ncc-72700
<u>Classification</u>	:	Dreadnought Frigate
<u>Type</u>	:	Class 1 B Starship
<u>Model Number</u>	:	1

PHYSICAL SPECIFICATIONS

<u>Length</u>	:	339 m	:	1,112 ft
<u>Beam</u>	:	142 m	:	466 ft
<u>Draft</u>	:	57 m	:	187 ft
<u>Displacement</u>	:	255,190 mt	:	510,380,000 lbs

USS ADAMANT SHIPS COMPLEMENT

Total Standard : 474
Officers : 88
Enlisted : 358
Passengers : 10
Marine Detachment : 28

COMMAND

Commanding Officer 1
 Executive Officer / First Officer 1
 Second Officer 1
 Captain's Yeoman 1
 Senior Enlisted 1

HELM DIVISION

Helmsman 1
 Assistant Helmsman 5
 Helm System Analyst 2
 Helm System Technician 4

NAVIGATION DIVISION

Navigator 1
 Assistant Navigator 5
 Navigation Systems Analyst 2
 Navigational Systems Technician 4

COMMUNICATIONS DIVISION

Communication Officer 1

USS ADAMANT

SYNOPSIS

Though Starfleet has attempted to avoid the dedicated warship designs in the past, the advent of renewed hostilities with the Klingon forces has forced Starfleet to rethink its starship design from a primarily scientific standpoint. From what Starfleet intelligence has gathered, Klingon starships have very little in the way of scientific research platforms. Their vessels are designed more around the fighting platform than that of interstellar research.

The D-7 being the primary warship that Starfleet has encountered to date carries an impressive assortment of weapons systems and combat durability. Also do to the fact that the Klingon empire tends to place their ships into what amounts to old earth wolf packs on the hunt. A vessel was needed that could act as a defensive platform of a frigate, but with the firepower and defensive capabilities of a Dreadnought. To that end the dreadnought frigate was conceived.

One of the first of these new ships was the Tando class. Overwhelming firepower gave the ship a tactical advantage. But the problem was maneuverability. With the added weight of the weapon systems and the deflector. The ship had a tendency to become unstable during high speed turns.

Starfleet R&D decided to take the ships design in a different direction. By lightening the ship with the simple deflector spires, and removing the heavy deflector dish. The ship was dramatically changed from a propulsion point of view. The ships dynamics changed allowing the ship to take tighter maneuvers during simulated combat engagements. With the removal of the secondary weapons pod from the design, the ships fire power was reduced. But the energy that would normally have been used for those systems was now available for use in other defensive or offensive systems. This allowed the ship to stay in a combat situation for a prolonged period beyond that of the Tando.

The Adamant class performance so far has been exemplary. All ships have performed either at expectations, or beyond.

USS ADAMANT

CLASS PERFORMANCE

The Uss Rogestad Ncc-72706, Uss Bou Alkma Ncc-72710, Uss Belogor'ye Ncc-72716, Uss Zlosnica Ncc-72723, Uss Zablocie Kanigowskie Ncc-72733, Uss Hempstead Ncc-72748 and Uss Sidi Hadjres Ncc-72758 part of Convoy Escort Group 53 out of Deep Space Star Base 431 under the command of Vice Admiral Oegusi Oeyigo making a routine escort of refugee ships from the Tofip star system along the Federation Klingon Border, came under attack by no less than fourteen Klingon starships. 5 D-7 heavy cruisers and no less than 9 birds of prey decloaked and attacked in force. Vice Admiral Oeyigo deployed the fleet into a standard defensive phalanx around the civilian ships with the Close support ships in tight formation around the transports. The Fast frigates and destroyers went into a Delta 2 formation forming a wall between the Klingons and the main force of the fleet. The Phaser patrol craft moved in quickly to engage the incoming birds of prey while the Photon Torpedo craft moved out and attempted to come in from astern of the D-7s. The Uss Zablocie Kanigowskie Ncc-72733 and Uss Belogor'ye Ncc-72716 immediately began taking heavy disrupter fire from the lead elements of the Klingon Forces, their captains having put their ships directly between the Klingons and the transports. Uss Belogor'ye Ncc-72716 returned fire with full Phaser cannons while the Uss Zablocie Kanigowskie Ncc-72733 let loose with a barrage of torpedoes. The lead D-7s shields collapsed and the ship was destroyed. Uss Sidi Hadjres Ncc-72758 and Uss Zlosnica Ncc-72723 followed in behind the attacking Phaser Patrol craft hitting the lead Birds of Prey with torpedoes. Two of the incoming ships were heavily damaged. As the fleet began maneuvering again to confront the incoming ships, the Klingon vessels cloaked and left without further incident. The incident is currently under review by Starfleet intelligence.

The Uss Uzgorsk Ncc-72708 had to be put into dry dock after the ship was damaged by a spatial anomaly. During a routine sensor sweep near Deep Space Star Station 128. The ships sensors detected a minor gravitational anomaly and the captain, under the request of the ships science division, brought the ship to a full stop and began as sensor sweep of the area. Capt. Pupiswu Mepado believed that the anomaly might be the beginning of a spatial collapse preceding the appearance of a worm hole and brought the ship within 4,000 kilometers for study. After launching a stellar probe. The anomaly disappeared from sensors. The science officer intensified his scan of the area when the anomaly reappeared. But 1,500 kilometers closer to the ship. Taking precaution, Capt. Pupiswu Mepado maneuvered the ship at full impulse to maintain a safe distance. Sensor records indicate that the anomaly momentarily intensified its gravitational area of effect, then disappeared from sensors again. Capt. Pupiswu Mepado believed that the anomaly may have been attracted to the ships warp core and began backing away from the last known position of the anomaly. As the ship was backing away at full impulse. The anomaly appeared in direct contact with the ship on the port side penetrating the ship's hull. There was an explosive decompression of the hull on five decks. Due the anomalies gravitational affect. The ships emergency atmosphere force fields were unable to deploy and eight crew members were blown out of the hull. As the ship was maneuvering at the time of contact. The anomaly was however stationary and acted like a knife slicing through the hull leaving devastation in its wake. Fourteen more crew members perished and the port side docking port and sensor array was destroyed. The captain managed to get the ship away from the anomaly and jump to warp even with the damaged section of the ship. In all thirty three crew members were lost and the ship received extensive structural damage. This incident is currently under investigation.

The Uss Kahamnia Ncc-72781 has been put into dry dock for a five sensor systems upgrade.

The background of the page features a large, stylized Starfleet Command logo. It consists of a central gold and blue emblem with a silver starship silhouette, surrounded by a blue ring with the text "STARFLEET COMMAND" at the top and "UNITED FEDERATION OF PLANETS" at the bottom. The entire logo is set against a silver, metallic-looking circular border with a jagged, gear-like edge.

Credits

MASTERCOM DATA CENTER: This is where I got the initial cover photo idea to start this project.

Paramount Pictures and CBS television: For bringing me the inspiration for the work in the first place.

Gene Roddenberry (The Great Bird of the Galaxy): For having the idea of a future where all people could live together for a common goal. That of seeing what's out there.

All the Other Fans: Because we make this possible and keep the faith going to hope for that better future someday.

“... to boldly go where no one has gone before.”

“The Definitive publication on the subject . . . a must for any being interested in Star Fleet strength.”

-Ship Design

“This manual should be required reading for every strategic planner in the Federation.”

-Starship Interstellar

“The best manual to cover information on the subject of Federation starships.”
