Twenty heavy hitters at Ohio Fair

Stephen Stills have the new shorter hair styles.

Lin Viviano, playing his jazz rock at the Smiling Dog tonight, has a long musical heritage. His father, Santo, played in Ted Weems band.

Rocket from the Tombs is breaking in a new bass player and drummer, reports Crocus. They've got an Aug. 24th date and if

they don't have a drummer then Dick Korn will sit in.

Charlie Weiner is working on some standup comedian bis for his Funn Buns.

The WIXY jocks are taking on the Kirtland Girls Soccer Team tomorrow at Finney Stadium in Berea.

but the contest could be closer than you think. The girls are giving themselves a heavy handicap. The

Cleveland team plays New York in the big game. And Bullett plays its own good brand of rock.

Donna Halper, WMMS music director, is mentioned in the liner notes of Rush's new LP. No one deserves it more. Donna discovered the Canadian group when their LP was released in Canada. WMMS broke the group here.

You may have to renegotiate your allowance contract. One of the leading record companies, Capitol, has just upped its singles to \$1.29. (Remember when a record cost you 35 cents?)
